

# Smith Irrigation Efficiency Project

**COST FOR PROJECT: \$34,073**

**OWEB SMALL GRANT: \$10,000**

**AWARD DATE: 5-27-09**

**PROJECT COMPLETED: 10-05-09**

## **SMITH IRRIGATION EFFICIENCY PROJECT**

**Small Grant # 04-08-007**

**OUTSTANDING COOPERATOR OF THE YEAR: JERRY and LINDA SMITH.** Their project was similar to the Geaney project. It had the same goals and objectives and the project size was 29 acres. The Smith's have been a cooperater to the district for some time and their land is located on the North Fork Coquille River, an area that the Coos Soil and Water Conservation and Coquille Watershed Association are concentrating on for technical assistance and education. Congratulations for all your hard work this year and every year!

ED GROVES and JOHN MAST'S Irrigation Efficiency Projects were also completed in the fall of 2009 and covered 50 acres and 30 acres respectively, congratulations!

### **THANKS TO EVERYONE INVOLVED WITH THESE PROJECTS:**

- United States Department of Agriculture (USDA) and Natural Resource Conservation Service (NRCS) - Tom Purvis and Pat Jones.
- Pacific Ag Systems: Tye Fountain and David Bowyer.
- Oregon Watershed Enhancement Board (OWEB).
- Small Grants Team
- All Five landowners: LaBrousse, Geaney, Smith, Mast, and Groves
- Coos Soil & Water Conservation District
